

Note to Printer: Matt Varnish
For visual reference only, not suitable for print usage

Printers Information

Use digital Pantone Plus Library as Spectral target. Refer to range Pre-production notes for criteria of importance guidelines.

You are expected to match to this standard within a Delta E of 2 (Varnish On)

Recommended measurement device – X-Rite SpectroEye Firmware 3.12 (XRGGA)

Delta formula	2000
Tolerance	Less Than 2
Observer Angle	2 Degrees
Illuminate	D50
Filter	None
White Base	Absolute

You are expected to achieve this regardless of substrate and varnish.

Please Confirm:

You are able to measure against this standard and hold the latest Pantone Plus library.

NOTE: The target for MS coded colours remains the cxf data supplied

CUTTER GUIDE

How to view this PDF

Adjust your preferences within Acrobat as follows:
Edit Menu> Preferences> Page Display> Check Overprint Preview is ON (or Off until it displays correctly).
This PDF may contain White/Varnish Separations that will be displayed as a solid colour, if you need these separations turned off this can be done as follows: View Menu> Navigation Panels> Layers, you can then turn off layers that relate to White/Varnish.
